POPE SENDS PEACE PROPOSALS TO BELLIGERENT NATIONS

OUTLINES BASIS FOR WAR'S END

Concrete Plan Outlined By Pontiff Provides for Restoration of All Lands Seized By Both Sides and Solution of Problems of Annexed Provinces

(Associated Press by U. S. Naval Communication Service)
An undated despatch by the Associated Press today says that in all theaters of war activities there are no changes of importance.

ROME, Italy, Aug. 14.—Pope Benedict XV, in an effort to bring about an end to the frightful slaughter in war-ridden Europe, has today issued a peace proposal to all the belligerent nations.

These proposals are embodied in a concrete plan which His Holiness submits as a basis on which the warring nations may be brought together for discussion, and include:

- 1.—The restoration of Belgium.
- 2.—The restoration of Serbia.
- 3.—The restoration of Rumania.
- 4.—The restoration of Germany's lost colonies.
- 5.—The peaceful solution of the vital national issues of Poland, Alsace, Italy, Irredenta and Armenia.

LONDON, Eng., Aug. 14.—It is understood here that the Pope, in his peace proposals just submitted, in referring to readjustments of national frontiers in Europe, believes the question should be left for "subsequent negotiations."

WASHINGTON, D. C., Aug. 14.—The peace proposals of Pope Benedict XV are attracting much attention in newspaper columns.

State department officials declare they have no official knowledge of any peace propositions, and will give them no consideration till the allied nations have been consulted.

Diplomats here are reported to be of the opinion that the proposals for peace as outlined by Pope Benedict will have no influence on the previously agreed-to war aims of the powers lined up against the Central Powers, and believe the projected terms were inspired by Germany.

His Holiness eloquently describes the terrible condition of Europe, which he declares faces utter destruction unless the nations shall cease their suicidal war.

He declares himself unqualifiedly approving President Wilson's ideas for the avoidance of wars in the future, and is opposed to the plans for economic war.

All belligerents must submit to losses sustained with the exception of the matter of territory.

MAN, WOMAN VICTIMS OF RIVAL'S FURY

JEALOUS OF the man who he declared had alienated the affections of a pretty 18-year-old Filipino girl, who he claimed was once his wife, Henry Alcantara, another Filipino, stabbed both the girl and the man yesterday afternoon shortly before 3 o'clock and inflicted dangerous wounds.

Eustaquia Ellama, the girl, is now in the Queen's hospital recovering from wounds in the back, while Pedro Bandalan is at the Emergency hospital recovering from similar wounds.

The police ambulance was called to Waipahu, the scene of the stabbing fray, yesterday afternoon where Alcantara was discovered with a long dagger in his hand shortly after the attack. When the police gave chase he threw his dagger into a pond. He surrendered when faced with a loaded revolver.

Although both victims of the assault may live, Alcantara is now being held in the police station pending trial.

YESTERDAY HOTTEST IN HONOLULU IN TWO YEARS

Yesterday was the warmest day Honolulu has seen in nearly two years, according to the weather bureau. The thermometer registered 84.8 degrees during the hottest part of the day. September 16, 1915, the thermometer was 86.6 degrees. In 1916 the hottest day was September 14 when the thermometer stood at 84.2 degrees. Other hot days in this year were May 29, 83.7; June 23, 83.6, and July 18, 84.1.

LATE NEWS AT A GLANCE

EXPLAINS SUPERVISORS' SIDE OF REGISTRATION MIX-UP
Supervisor A. A. Akina of Hawaii is in town today and says he attaches little importance to charges that the members of the Hawaii board of supervisors are slackers. He says the board appropriated \$500 to handle the registration work on the Big Island, but later found it had no authority to make the appropriation. Later, he says, Sheriff Sam Pua asked for \$1000 for registration work, and then for a quarterly appropriation of \$500. The people of the Big Island, he says, have offered to furnish clerical help for registration work, but he declares the sheriff wants paid help. "This," he adds, "is where all the trouble comes in."

PUBLIC UTILITIES TO INVESTIGATE CROWDED CARS
Because of a complaint signed "Only a Workman" filed with the public utilities commission against the crowded conditions of the street cars during the "rush hours," the commission agreed this afternoon to request officials of the Honolulu Rapid Transit & Land Company to meet informally and discuss the situation.

EXTEND TIME IN CASE INVOLVING COMPENSATION ACT
A stipulation has been filed in the supreme court in which the plaintiff in the case of Edgar T. Anderson against the Hawaiian Dredging Co. is given until October 15 to file his brief. Defendant is given until November 6 to file his brief. Plaintiff has asked that the case not be heard until the return of Associate Justice James L. Cooke. This is one of the cases upon which Judge Ashford based a decision holding the territorial workman's compensation act to be unconstitutional.

M'CANDLESS SUES CITY FOR DAMAGED AUTOMOBILE
A suit for the recovery of alleged damages in the sum of \$700 was filed in circuit court late this afternoon by L. L. M'Candless against the city and county of Honolulu. The complaint says that on August 22, 1917, the city and county "negligently and carelessly" dumped a lot of loose soil and rock on the Pali road about a mile from Kaneohe. He claims that his automobile, while being driven over the road, became stuck in the soil and rock, and that its gears were stripped and other damage done to the extent of \$700.

ARGUMENT BEGUN IN LOANE MANDAMUS SUIT
Argument was begun in Circuit Judge Kemp's court this afternoon on the petition filed by Mrs. Julia Loane to compel Walter A. Engle, chief clerk in the land office, to restate his name among those of persons who drew homestead lots in the Kanae, Kaula, district. Mrs. Loane's number was 13, but was thrown out because her husband had also filed an application. The law firm of Mott-Smith & Lindsay is representing Mrs. Loane.

TEST RIDE ENDS DRASTICALLY FOR SOLDIER
Returning to the police station on the last lap of a ride which was to determine whether he would receive a license to drive his motorcycle, John Edwards, Co. D, Engineers, ran into the rear of the sheriff's car, bent the fender and in the fall which he took so injured himself that he was taken to the Emergency hospital for treatment.

KOREANS SEEK SUPPRESSION OF VICE ON OAHU

Suppression of vice, including drinking, gambling and opium smoking, among the Koreans in Hawaii, is the basis of a territory-wide campaign which has been launched by the Korean National Association, and in which the cooperation of the Anti-Saloon League has been solicited. In letters which are being sent out by the association, outlining the purpose of the campaign it is pointed out that it is the desire of the members to aid the courts, the police authorities and the plantation heads in enforcing all laws relating to gambling, drinking and opium-smoking. These vices, says the letter, are becoming prevalent among Koreans working on plantations, as well as among those living in the cities. The letter adds that a majority of the Koreans in Hawaii are opposed to these vices, and stand ready to do their share toward suppressing them.

The letter follows: "The Korean National Association, an incorporated body for the purpose of raising the standard of the Korean people in the territory of Hawaii, and the leaders of the Korean churches, have recently requested the Anti-Saloon League, which organizes efforts for the purpose of promoting temperance and public morals, to cooperate with them in regard to the suppression of certain vices, which they have found are becoming to some extent prevalent among the Koreans working on the plantations as well as those living in the cities."

"They state that a majority of the Koreans in the islands are opposed to these vices and are ready to stand together in suppressing the evils of drinking, gambling and opium-smoking. The Anti-Saloon League is specially requested to assist the Koreans in bringing before the court and police authorities and plantation managers their desire to aid in enforcing the law very rapidly among their countrymen."

"The Korean leaders have expressed their appreciation of the cooperation of the plantation managers in the past, but have felt in some cases the enforcement of the law against drinking and opium-smoking has not been rigid enough. The Korean National Association leaders would like the plantation managers to instruct the plantation policemen to cooperate with Korean policemen in prohibiting the above-mentioned vices from being carried on in Korean camps and also in prohibiting the Korean laborers from going into the Chinese camps where such vices are said to be most prevalent. They further state that the Korean policemen are instructed to arrest all violators of the law but that they are powerless, unless they are backed up by the regular policemen of the plantations."

The Anti-Saloon League feels that this movement of the Koreans is a very wholesome one for life on the plantation. We sincerely hope that this cooperation with you in this matter will be helpful."

If the Hawaiian now resting in the Emergency hospital does not recover his sight, Frank Carvalho, a Portuguese, will likely pay a heavy penalty

GIRL'S THIRD SUICIDE TRY AGAIN FOILED

Russian Young Woman Drinks Liniment But Timely Intervention Saves Her

IN vain, Alice Medvedeva, a 21-year-old Russian girl, today attempted to end her life for the third time by drinking liniment at her home, Miller and Punch-bowl streets. Hearing of the attempt, the police rushed to the scene and brought the girl to the Emergency hospital where the poison was drawn from her system. She returned home early this afternoon on the way to recovery.

Following unhappiness that has arisen out of family differences, Alice has three times attempted to bring it to an end by drinking, in each case, liniment.

MAYOR LOSES RIGHT TO NAME CITY ENGINEER

Deputy Attorney Davis Rules Power to Fill Appointment is Vested in Board of Supervisors By Old Ordinance

UNDER ordinance 32 the appointment of the city and county engineer is vested solely in the board of supervisors, and the mayor has nothing to do with it. This is the bomb which was dropped by Deputy City Attorney Charles Davis at the meeting of the board of supervisors Monday night and as a result the entire situation relative to the office of city and county engineer has been changed in favor of the Republicans.

The surprise was sprung by Attorney Davis following the request of Supervisor McCallum for a legal opinion of the ordinance establishing the position of assistant city and county engineer and the power to give the assistant the same powers vested in the city engineer.

Ordinance 32 establishes the office of city and county engineer and was passed years ago by a board which had the right to appoint and since then no law has been passed changing its meaning, according to Mr. Davis. When the ordinance creating an assistant engineer came up for third reading Supervisor Mott-Smith asked that the vote be deferred as he would like to have a report from the road department on the subject.

Supervisor Arnold replied that the reorganization of the road and engineering departments hinged on the passage of the ordinance and urged that the vote be taken. Supervisors Hollinger and Ahia also came out in favor of voting at once. Supervisor Bellina, however, thought the board ought to appoint a city engineer now and not bother about an assistant. Mr. Mott-Smith, however, held out for the report first.

Supervisor Petrie then made an appeal to the board to get together with the mayor and settle on some man who would be acceptable as city engineer.

"You won't say that you are not big enough to meet the mayor and take the question up openly," he said. Supervisor McCallum then raised the question of validity resulting in Attorney Davis' answer.

HAWAII DELAY HALTS REPORTS ON REGISTRATION

The islands of Maui and Kauai have carried out their registration work without a single item of expense to the federal government, according to a statement today by F. J. Green, executive officer of the central board. These islands and Oahu have responded nobly to the call for gratuitous service.

Mr. Green today received the final statements from Sheriff Clem Crowell of Maui, who, he says, along with the board of supervisors and registrars has done absolutely all that could be expected.

Kauai has been first to get in the summarization report, but to Maui goes the honor of filing first the complete returns. "Owing to the action of the Hawaii board of supervisors," said Mr. Green, "the full report to the territory will be greatly delayed, and I am not able to say at present when this will be sent to Washington."

TEUTON ALIEN ENEMIES MUST NOW GET PERMITS TO TRAVEL ABOUT ISLANDS

Cabled Advices From Washington Instruct U. S. Attorney Huber to Pass on All Cases and Authorize the Issuance of Permits for Legitimate Reasons

CABLED instructions received by U. S. Attorney S. C. Huber from the department of justice, Washington, D. C., late yesterday, draw the net of federal surveillance still closer about German alien enemies in the territory. The instructions prohibit German aliens from traveling from island to island, except in cases where they are granted special permits. Whether such permits shall be granted rests entirely with District Attorney Huber.

The new instructions have a three-fold purpose: First, they place the federal authorities in a position to observe more closely the movements of alien enemies; second, they afford greater protection to residents of Hawaii from pro-German demonstrations, and, third, they protect the aliens themselves from illegal seizure and search by persons purporting to be connected with the U. S. secret service.

Under instructions issued shortly after the United States entered the war, all German aliens in Honolulu are required to have permits allowing them to reside and do business in the several restricted areas already established in Honolulu, which includes the business district and areas within half a mile of forts and others government works or stations. Germans residing on the other islands are also required to have permits before they can enter these restricted areas, even if only visiting Honolulu for a day or two on business.

Huber Passes on Permits
The instructions received yesterday establish a new set of rules regarding permits, and in which the permits already issued play no part. From now on all German aliens desiring to travel from one island to another in the territory must apply to District Attorney Huber for a permit, and it is for him to say whether or not the permit shall issue.

Attorney Huber will personally investigate all applications for permits and, if he sanctions the application, Marshal Jerome J. Smiddy will then issue the permit. This rule not only applies to German aliens living in Honolulu, but to such persons living anywhere in the islands.

For instance, if a German residing at Lahaina desires to travel to Hilo, he must make application to the U. S. attorney, either in person or in writing, for his permit. His case will be passed upon in the same manner as all others. As federal officials explained today, these regulations will be enforced in the same manner as the ones issued some months ago, when all aliens in Honolulu were required to register, and all cases of violation will be summarily dealt with.

Not only will these regulations serve as a protection to the general public, as well as allow the federal authorities to keep a closer watch on the movements of all alien enemies, but the German aliens themselves will be benefited.

Marshal Smiddy said today: "These instructions are going to be of benefit to all German aliens in Hawaii for the reason that, with permits their possession, they will not be subject to illegal seizures and searches by persons passing themselves off as federal secret service agents."

The new instructions go into effect immediately.

U. S. SOLDIERS OBJECT TO BEING CALLED 'SAMMIES'

(Associated Press by U. S. Naval Communication Service)
AMERICAN CAMP IN FRANCE, Aug. 14.—The men forming the first expeditionary force from the United States have just learned through American newspapers that they have been tagged with the appellation "Sammies," and are deeply resentful, considering the nickname as undignified and irritating. Not only the boys of the army but American residents are declared opposed to the term.

It is declared to be a ridiculous effort to play upon the jocular interpretation of the initials of U. S., "Uncle Sam," and no such nickname should be forced upon the fighters. The protest is most spontaneous from both army men and civilians.

(The Westpoint nickname for molasses is Sammy.)
The Amalgamated Clothing Workers of America declared that if a \$1 increase in wages was not given to them about 25,000 workers would go on strike.

ARTILLERY COMPANY ABOLISHED

Capt. W. G. Allen is Chosen Commander of New Japanese Company; 12 Lettered Companies in Honolulu Consolidated Into Six; New Commanders Named

ANNOUNCEMENT of sweeping changes in the organization of the Oahu guard, including the consolidation of several companies, the transfer of men and the change in assignment of company commanders, was made public this afternoon by Brig.-Gen. Samuel I. Johnson, adjutant-general of the territory, and Col. W. R. Riley of the 1st Hawaiian Infantry.

Among the most important changes are the abolishment for the time at least of the coast artillery company of the guard and the transfer of its men to the local machine gun company.

The Japanese company, which is to be formed within a few days is to be known as Company D, the 27 white members of that company going over to the machine gun company along with the artillerymen.

While the changes may in some cases work a hardship on individuals, it is felt that as a whole the guard organization will benefit to a marked degree.

Among the reasons ascribed for the change are the following:

- 1.—The present strength of the companies is too low to hold efficient drills.
- 2.—Companies are not at present on a pay status, according to the national defense act.
- 3.—Annual encampment cannot be held unless each company has an enrollment of 60 per cent of 85 men at least two months before the field period. In this connection it is interesting to note that the last day of grace for reorganization would be tomorrow, the plan being to hold encampment beginning October 15.

Officers of the new Japanese company are to be: Capt. W. G. Allen, commanding; 1st Lieut. Frank Midkiff and 2nd Lieut. William L. Warren.

The 12-lettered companies of the present organization in Honolulu proper will be consolidated to six companies, three companies in the 1st battalion, under Maj. M. M. Johnson, and 3 in the 2nd battalion, under Maj. A. W. Neely.

Under the new organization the commanders will be as follows:

- Company A—Capt. Henry O'Sullivan, with Lieuts. Godfrey and Desha.
- Company B—Capt. S. M. Lowrey, with Lieuts. Baker and Benny.
- Company C—Capt. H. Stuart Johnson, with Lieuts. May and Vickery.
- Company D—Capt. W. G. Allen, with Lieuts. Midkiff and Warren.
- Company E—Officers not selected, also E. F. G. and H.
- Company I—Capt. Samuel H. Ware, with Lieuts. McCallum and Kaueha.
- Company K—Capt. Ching K. Amone, with Lieuts. Sing and Yap.
- Company L, Alea—Capt. Charles N. Arnold, with Lieuts. Witte and De La Nux.
- Company M—Capt. Walter V. Kofb, with Lieuts. Haehnen and Gimbel.
- Machine Gun Company—Capt. Lawrence, with Lieuts. White, Ry-croft and Clark.

MEETING CALLED TO DISCUSS ORGANIZATION OF JAPANESE MILITIA

Brig.-Gen. Samuel I. Johnson, adjutant general of Hawaii, has called a meeting for Thursday night as the first step in the organization of a Japanese company of the National Guard of Oahu.

To this meeting all Hawaiian-born Japanese between the ages of 18 and 45 are invited, and a big turnout is expected as the Japanese here are ready to do their part in the organization of one or more companies of guardsmen from among their race.

KANSAS SALOONS CLOSE DOORS PENDING RULING

KANSAS CITY, Mo., August 14.—What is a "camp" in the sense of the word as used by the president in his regulations establishing a dry zone within the limit of an incorporated city?

The federal authorities have taken up the matter and a test will either be made at once in the courts or a ruling will be sought from the attorney-general of the United States, in order that a speedy decision may be arrived at.

In the meanwhile, 260 saloons whose places of business are within half a mile of the military establishment, have voluntarily closed their doors.

CHINA DECLARES WAR ON TEUTONS

(Associated Press by U. S. Naval Communication Service)

WASHINGTON, August 14.—Information was received by the Chinese minister here today that China has officially declared war on Germany and Austria in line with the policy determined on following the recent crushing of the monarchical revolt.

HUN PAPERS SEE DAWN OF PEACE IN BRITISH LABOR ROW

(Associated Press by U. S. Naval Communication Service)

ZURICH, Switzerland, Aug. 14.—Austrian newspapers are jubilant over the resignation of Arthur Henderson, British labor leader, from the cabinet. They regard it as presaging the wreck of the English cabinet and herald his withdrawal as betokening the dawn of peace.

PAGO PAGO HUN GOES TO PRISON FOR TREASON TALK

(Associated Press by U. S. Naval Communication Service)

PAGO PAGO, Samoa, Aug. 14.—William Hutch has been convicted here by court-martial of seditious utterings and sentenced to prison for the period of the war. Hutch is a German-American.

U. BOAT TOLL DURING WAR 9748 LIVES

(Associated Press by U. S. Naval Communication Service)

LONDON, Eng., Aug. 14.—Figures made public here by the admiralty show that the human toll taken on British merchantmen since the beginning of the war is 9748 lives. Of these 3878 were passengers.

BRITISH WASP SUNK BY MINE

(Associated Press by U. S. Naval Communication Service)

LONDON, Eng., Aug. 14.—A British destroyer on scout duty has been sunk in the North Sea as result of a collision with a German mine. No word has been received as to the loss of life.

MARTIAL LAW RULES SPAIN

(Associated Press by U. S. Naval Communication Service)

MADRID, Spain, Aug. 14.—Martial law has been proclaimed through the country because of the general strike representing all trades. The agitation is spreading. The railroad employees are considering a general walkout in sympathy with the strikers.
